

AMENDED IN SENATE MAY 8, 2007

SENATE BILL

No. 1030

Introduced by Senator Negrete McLeod

February 23, 2007

An act to ~~amend Section 10631.5 of the Water Code, relating to~~
water.

LEGISLATIVE COUNSEL'S DIGEST

SB 1030, as amended, Negrete McLeod. ~~Water: urban water suppliers: perchlorate.~~

The existing Porter-Cologne Water Quality Control Act establishes, among other things, a statewide program for water quality control.

This bill would express the intent of the Legislature to enact legislation to address current issues that arise with respect to the presence of perchlorate in or around the state's water supply.

~~Existing law requires every urban water supplier to prepare and adopt an urban water management plan, as prescribed. Existing law requires an urban water supplier to submit a copy of its plan to, among others, the Department of Water Resources. Existing law requires the department to take into consideration whether the urban water supplier is implementing the water demand management activities that the urban water supplier identified in its urban water management plan in evaluating applications for grants and loans made available pursuant to the certain provisions of the Costa-Machado Water Act of 2000.~~

~~This bill would make a technical, nonsubstantive change to the requirement that the department take into consideration whether the urban water supplier is implementing the water demand management activities that the urban water supplier identified in its urban water management plan in evaluating applications for grants and loans made~~

available pursuant to the certain provisions of the Costa-Machado Water Act of 2000.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. It is the intent of the Legislature to enact
2 legislation to address current issues that arise with respect to the
3 presence of perchlorate in or around the state's water supply.
4 SECTION 1. Section 10631.5 of the Water Code is amended
5 to read:
6 10631.5. The department shall take into consideration whether
7 the urban water supplier is implementing, or scheduled for
8 implementation, the water demand management activities that the
9 urban water supplier identified in its urban water management
10 plan, pursuant to the requirements of Section 10631, in evaluating
11 applications for grants and loans made available pursuant to Section
12 79163. The urban water supplier may submit to the department
13 copies of its annual reports and other relevant documents to assist
14 the department in determining whether the urban water supplier
15 is implementing or scheduling the implementation of water demand
16 management activities.
